

For Gr. K-4

Eager Engineers

Sts. Joseph & John *w/ Ms. Puliafico!*

Eager Engineers is about hands on learning– with Lego's, K'nex, Citiblocs, Batteries & more. We want your child to be exposed to ideas like *Simple Machines, Fulcrums, Architecture, Magnetic Force & more.* Each week, we introduce an educational concept, and then build it! With this we build excitement, discovery, self confidence– and learn a few things too! New projects each & every week. Our blog shares the weekly build and STEAM concepts given.

Fall projects include: *Lego Rocket, Taj Mahal, Ship & Whale; K'nex Magnetic Pendulum, Recess & Motorized Fan; Citibloc Igloo, Turtle, Arch Bridge & more.*

All New Lessons EVERY Session!

Questions? email us: info@creativeclasses.org

Eager Engineers is held at the end of the school day in your school. We provide all the supplies and instructor. Contactless pick up is at Viking Cove Door "E" by the Visionary Center at 3pm. Please wait in your car, we will bring your child to you. If your child attends SJJ after-care at the end of our class, we will escort them to after-care. Additional details about our program and COVID policies are at www.creativeclasses.org

**All session dates are included in the calendar link at the bottom of your emailed receipt. Download that link so you never miss a class!*
